

WATER QUALITY – BACKFLOW PREVENTION REQUEST FOR NON-POTABLE DISCONNECTION

Pursuant to Marana Water policy, single family residential homes with non-potable CMID irrigation service, may disconnect the irrigation service and remove their backflow assembly (optional). This process is subject to an inspection and fee. Contact the CMID office at 520 682-3233 to schedule the non-potable lock off.

The owner must remove 3-5 feet of non-potable plumbing line. This line separation must be left exposed for inspection. Please contact the Marana Water Quality division at 520 382-2523 to set up an inspection.

Residents who wish to establish an irrigation line from the potable service must contact the Town of Marana Development Services to acquire a permit. Development Services can be reached at 520 382-2600.

FEE

The following fee will be billed to the water customer account:

Inspection Fee - \$40.00
